# TIMELESS HOME OFFICE

---

The “cantilevered chair without back legs”, the S 43, a design by Mart Stam from 1931, made history with its timeless form. The pure, understated shape of the cantilever chair lives on in the new models: clear lines as well as aesthetic and material austerity are the distinguishing features of the swivel chair. Whether for a home office, a design studio, a startup, an architect’s practice or an open-space office – the S 43 Atelier can be used wherever mobility and flexibility are key.

S 43 DR, Design Mart Stam
